https://github.com/IniyaVasanthanVM

Aspiring Software Engineer with proficiency in Object-Oriented Programming and programming languages including Python, Java, and SQL. Experienced in software development and problem-solving, with hands-on exposure to AI-powered application development through a Python & Artificial Intelligence internship at Virtusa. Passionate about building efficient software solutions and continuously learning emerging technologies.

Education

M.Tech (Integrated) in Computer Science and Engineering	Vellore Institute of Technology, Vellore	**7.38 (CGPA)**
Class 12 (CBSE)	Maharishi Vidya Mandir, Erode	**76.8%**
Class 10 (CBSE)	Maharishi Vidya Mandir, Erode	**77%**

Skills

- **Programming Languages** **:** Python, Java, SQL
- **Software Development Concepts** **:** Object Oriented Programming (OOPs), Database Management Systems (DBMS), Software Development Life Cycle (SDLC)
- **Tools & Platforms** **:** VS Code, Eclipse, Git & GitHub, Streamlit
- Familiar with AI development frameworks including LangChain, LangGraph, Langflow, and CrewAI.
- **Workplace Skills** **:** Problem-Solving, Teamwork & Collaboration, Communication, Adaptability

Projects

- **Unveiling Twitter's Sentiments:** Conducted sentiment analysis on Twitter data, utilizing NLP and Machine Learning techniques to assess public opinion on active political parties and forecast electoral outcomes using Streamlit, VADER, TextBlob, NLTK, Googletrans, and Matplotlib.
- **Empowering Informed Food Choices with AI:** A web application built with Flask and deployed via ngrok, capable of uploading or scanning any food product. Utilizes OpenCV and OCR to extract ingredients information and provide AI-driven suggestions for informed customer choices.
- **AI-based Medical Report Analyzer:** Built a Streamlit web app leveraging Gemini AI, OCR, and PDF processing to analyze medical reports, extract health insights, recommend medications, and visualize data using Matplotlib.

Experience

Python & AI Intern (remote) *Virtusa (Chennai)* *08/2025 – 06/2026*

- Worked on Python and AI frameworks including RAG, Agentic AI, LangChain, LangGraph, Langflow, CrewAI, and Agno to build and validate Streamlit applications, implement Human-in-the-Loop (HITL) workflows, and perform testing and debugging activities on the iamneo platform.

Full Stack Web Development Intern (remote) *EduStation (Bengaluru)* *05/2023 – 07/2023*

- Completed hands-on web development tasks under the guidance of experienced mentors, utilizing skills acquired through coursework. Gained familiarity in developing user-friendly web interfaces with a focus on seamless user experiences.

Certifications

- AI-900 Microsoft Azure AI Fundamentals *(EtrainIndia- Microsoft)* June 2024 – July 2024
- Full Stack Web Development *(EduStation- Bengaluru)* May 2023 – July 2023
