Professional Summary

Final-year Integrated Master's student in Computer Science with experience in software engineering, AI, and full-stack development. Skilled in building practical applications using Java, Python, Spring Boot, and machine learning technologies.

Technical Skills

- **Programming Languages:** Java, Python, SQL, JavaScript, C++
- **Frameworks & Libraries:** Spring Boot, Angular, Streamlit, Selenium
- **AI / ML:** Machine Learning fundamentals, NLP, Quantum Machine Learning (academic),neural network
- **Databases:** MongoDB, MySQL
- **Tools & Platforms:** Git, Docker (basic), Microsoft Azure, Google Colab, Apify

Projects

- **InfluenceIQ – Social Media Intelligence Platform**
  Python, Streamlit, NLP, Machine Learning, MongoDB, Apify, Selenium
  - Designed and developed a platform to collect, process, and analyze influencer data from social media platforms.
  - Implemented engagement metrics, authenticity checks, and NLP-based content analysis.
- **Quantum Supply Chain Manager**
  Python, PennyLane, Qiskit, QAOA, VQE
  - Developed a hybrid quantum–classical system for product backorder prediction using Quantum Neural Networks.
  - Implemented MERA-based quantum models and benchmarked them against classical ML approaches.
  - Solved Vehicle Routing Problems using QAOA/VQE-based quantum optimization techniques.
- **eSociety – Smart Society Management System**
  Java, Spring Boot, SQL, HTML, CSS, JavaScript
  - Built a role-based web application for managing residents, complaints, notices, and maintenance workflows.
  - Digitized manual society operations to improve transparency and issue tracking.

Experience

Software Engineering Intern – Virtusa Jun 2025 – Aug 2025
- Developed and tested RESTful APIs using Java and Spring Boot for backend integration.
- Built frontend features using Flutter and integrated them with backend services.
- Assisted in API integration to ensure seamless data flow across application modules.

Cloud Practitioner Intern – Microsoft E-Train Jun 2024 – Jul 2024
- Designed automated workflows using Power Automate and Azure Logic Apps.

Education

Integrated M.Tech in Computer Science 2021 – Present
Vellore Institute of Technology **CGPA: 8.55**

Class XII – CBSE Board 2021
Percentage: **89%**

Class X – ICSE Board 2019
Percentage: **89%**

Certifications

- Microsoft Azure AI Fundamentals (AI-900) – Microsoft, 2024
- React.js Developer Assessment – 2025
