EXECUTIVE SUMMARY

Engineering student at Vellore Institute of Technology with hands-on experience in Java Full Stack development using Java, Spring Boot, React.js, MySQL, and REST APIs. Strong foundation in Data Structures & Algorithms, SQL, and backend development, complemented by projects in MERN and AI-powered applications. Passionate about building scalable software solutions and eager to contribute to innovative engineering teams.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, C
Backend Technologies: Spring Boot, Spring Security, Spring Data JPA, REST APIs, Node.js, Express.js, Flask
Frontend Technologies: React.js, HTML5, CSS3, Bootstrap, JavaScript
Databases: MySQL, MongoDB
Tools & Platforms: Git, GitHub, Postman, Maven, VS Code, IntelliJ IDEA, Cursor

PROJECTS

Smart Inventory Management System | Java, Spring Boot, React.js, MySQL
- Developed a full-stack inventory management system using **Java, Spring Boot, React.js, and MySQL** to manage products, suppliers, and warehouse inventory.
- Implemented **secure role-based authentication**, inventory tracking, barcode generation, and invoice management using RESTful APIs.
- Built automated **low-stock, expiry, and damaged-product alerts** with email notifications to improve inventory monitoring and reduce product loss.
- Integrated **CSV-based inventory upload**, approval workflow (Maker-Checker), and real-time dashboard for efficient stock management and reporting.

Ticket-Flow – Issue Tracking Web Application
- Developed a full-stack issue tracking application using **MongoDB, Express.js, React.js, and Node.js (MERN)** for efficient ticket management.
- Implemented **JWT-based authentication** and **role-based access control** for secure Admin and User access.
- Built features including **ticket creation, assignment, status tracking, commenting, and priority management** using RESTful APIs.
- Designed an interactive **admin dashboard** with search, filters, and notifications to streamline issue monitoring and resolution.
- **Tech Stack:** MongoDB, Express.js, React.js, Node.js, JWT, REST APIs

PDF Chatbot (RAG-based Conversational AI)
- Developed a **Retrieval-Augmented Generation (RAG)** chatbot to answer user queries from PDF documents using semantic search and contextual AI responses.
- Integrated **LangChain, Cohere Embeddings, and Pinecone** for document indexing, vector search, and multi-turn conversational memory.
- Implemented **PDF parsing and text chunking** using PyMuPDF to extract and preprocess content for accurate information retrieval.
- Built a **Flask-based REST API** to process document uploads and deliver context-aware responses with improved retrieval accuracy.
- **Tech Stack:** Python, Flask, LangChain, Cohere, Pinecone, PyMuPDF

EXPERIENCE

Virtusa | Java Full Stack Developer Intern (Remote)
- Developed and maintained full-stack web applications using **Java, Spring Boot, React.js, and MySQL** following industry best practices.
- Designed and implemented **RESTful APIs**, database operations, and responsive UI components for business requirements.
- Worked with **Spring Security**, **Git/GitHub**, and **Postman** to build, test, and integrate secure application modules.
- Collaborated with mentors and team members in an **Agile** development environment, participating in code reviews, debugging, and feature implementation.

Technologies: Java, Spring Boot, React.js, Spring Security, MySQL, REST APIs, Git, GitHub, Postman

EDUCATIONAL CREDENTIALS

Integrated M-tech Computer Science and engineering 2021 – 2026 | Vellore, Tamil Nadu
Vellore Institute of Technology *CGPA:8.71 out of 10*

Higher Secondary(MPC) 2019 – 2021 | Jangareddygudem, Andhra Pradesh
Sri Chaitanya Junior College *Percentage:97.7%*

Secondary School 2018 – 2019 | Jangareddygudem, Andhra Pradesh
Kids Public School *CGPA:10.0 out of 10*
